Starting the week of January 24, 2011, single family detached homes that receive yard trimmings collection will be able to include food scraps through the new Green Can program, which is an expansion of the current yard trimmings collection program.

By next week, all single family detached homes in White Rock will have received a letter from the City outlining the program, along with a new Green Can decal. Residents that require additional decals can pick them up from the City's Municipal Operations Yard at 877 Keil Street.

In order to be part of the Green Can program, simply attach a Green Can decal on the outside of your current yard trimmings can. If you don't yet have a can for yard trimmings, you can make any 45 litres can (or less) a green can with a Green Can decal. It is recommended that you line the can with a Kraft-type paper bag, available at City facilities, to help keep the can clean.

You can include the following items in your Green Can:

- Any kind of cooked or uncooked food scraps, including meat, poultry, fish, seafood, bones, eggshells, dairy, vegetables, fruit, bread, pasta, and grains
- All leftovers and plate scrapings
