

# YOUR FIRST CITY WATER BILL

## HOW OFTEN WILL I GET A BILL?

The City proposes to issue water bills quarterly:

- » End of January - Oct to Dec consumption
- » End of April - Jan to Mar consumption
- » End of July - Apr to Jun consumption
- » End of October - Jul to Sep consumption

Common practice for many municipalities, reduces administrative costs

## HYDRANT LEVY

In addition to charging for water consumption, EPCOR bills the city for costs associated with fire hydrants

- » Previously, charged to property owners on annual tax notice based on assessed value of properties
- » Under City ownership, fees to be transitioned to user pay basis and built into water rates
- » Considered in line with other municipalities
